

# Huawei P10 Front Facing Camera Replacement

This guide shows how to replace the front facing camera in your Huawei P10.

Written By: Dominik Schnabelrauch

## INTRODUCTION

Use this guide to replace the front facing camera in your Huawei P10 smartphone. When reassembling your phone apply new adhesive where it is necessary.

### TOOLS:

- [P2 Pentalobe Screwdriver iPhone](#) (1)
  - [Spudger](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [Tweezers](#) (1)
-

## Step 1 — Back Cover

- Switch off your phone.
- Remove the two Pentalobe P2 screws at the bottom.
- Remove the SIM card tray.

## Step 2

- Insert a plastic opening tool between the display and the case starting at the bottom area of your phone.
- Carefully pry the display with its parts out of the case.
  - ⓘ Getting the prying tool in will require some effort, be careful not to slide the tool too much or you might slightly damage the housing.
- After you pried out the bottom end, use the opening tool to open the clamps on both sides.

### Step 3

**⚠** Don't open the phone all the way, yet. The cable for the standby and volume buttons is still connected to the back cover.

- Swing open the phone backwards.
- Use a spudger to disconnect the power- and volume button flex cable.

### Step 4 — Battery disconnect

- Remove the Phillips #00 screw.
- Use tweezers to remove the metal plate.
- Use a spudger to disconnect the battery flex cable.

This document was generated on 2020-11-28 06:27:34 AM (MST).

## Step 5 — Front Facing Camera

- Use tweezers to carefully loosen the bottom end of the adhesive strip, that holds down the flex connector of the front facing camera.
- Use a spudger to disconnect the flex cable of the front facing camera.
- Carefully remove the front facing camera.

To reassemble your device, follow these instructions in reverse order. When reassembling your phone apply new adhesive where it is necessary.
