

# Sony Xperia XA Loudspeaker Replacement

How to replace the loudspeaker in a Sony Xperia XA.

Written By: Stephen Rock

---

## INTRODUCTION

You will need to use a source of heat. You may need to buy adhesive for the reassembly. Make sure the phone is completely powered off before opening the device.

---

### TOOLS:

- [Heat Gun](#) (1)
  - [Metal Spudger](#) (1)
  - [Suction Handle](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [Spudger](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Back Cover

- Apply heat on the back surface of the phone.
- ⓘ Continue to heat the device as needed throughout the replacement process.
- ⚠ The device can get very hot, so be careful when handling it.

## Step 2

- Stick the small suction cup on the bottom half of the back surface of the phone.

## Step 3

- With the bottom of the device facing you, lift up on the suction cup handle.
- Use the plastic opening tool around all sides to pry off the back cover.

## Step 4

- Pull the back of the phone case away from the device.
- i* You will hear popping sounds of glue being ripped from the phone.
- i* You will hear the sound of the back unlatching from the device.
- ★* You will need to apply adhesive or glue along the device to have maximum seal in reassembly.
- i* RAF antenna may be attached to the back cover upon removal.

## Step 5

- Apply heat to the copper RAF antenna.
- ⓘ This step and the following step only apply if the RAF antenna does not come off when taking the back cover off.

## Step 6

- Peel back the RAF antenna.

## Step 7 — Loudspeaker

- Remove the four 4mm screws holding the loudspeaker in place with a Phillips #00 screwdriver.

## Step 8

- Push back the two retaining tabs on the top of the loudspeaker with the spudger.

## Step 9

- Pry the loudspeaker up with the spudger.

## Step 10

- Remove the loudspeaker with your hands.

To reassemble your device, follow these instructions in reverse order.
