

# Samsung Galaxy S7 Active Rear Camera Replacement

How to replace the Samsung Galaxy S7 Active rear camera.

Written By: Joe De Leone

## **INTRODUCTION**

This guide will teach you how to replace the rear camera on the Samsung Galaxy S7 Active.

# **TOOLS:**

- Phillips #000 Screwdriver (1)
- Heat Gun (1)
- Metal Spudger (1)
- Hair Dryer (1)
- Tweezers (1)

## **PARTS:**

• Samsung Galaxy S7 Active Screen (1)

#### Step 1 — Samsung Galaxy S7 Active Disassembly

- Melt the adhesive on the screen by applying a blow dryer directly on the screen.
- Your phone is hot, please do not touch it with your bare hand.

#### Step 2

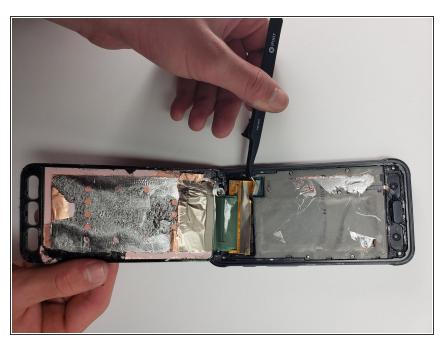

- Wedge the metal spudger in between the screen and the frame to begin separating them.
- it would be easier to separate the screen from the sealing adhesive on the frame if you with more than one metal spudger.
- Your phone might no longer be watertight after you reassemble it.

- Slide the metal spudger around the phone at least once.
- it would be easier to slide your metal spudger if you apply the blow dryer to where you are currently sliding.

# Step 4

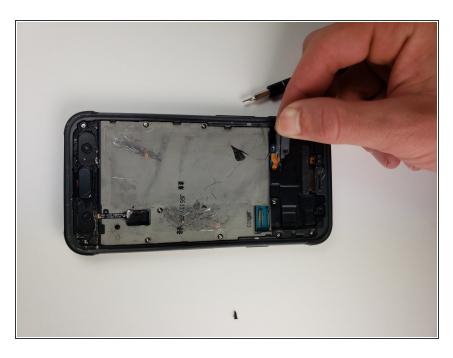

- Lift the screen up with your hands.
- Please wash your hands thoroughly with hot water and soap after you finish.

# Step 5 — Battery

 Use a Phillips #000 screwdriver to remove a single screw.

# Step 6

 Use tweezers to remove the small plastic cover you just unscrewed.

 Use tweezers to remove the other small plastic cover.

# Step 8

 Use a Phillips head #000 to take out the eleven screws marked in the photo.

 Use tweezers to disconnect the marked pieces from the motherboard.

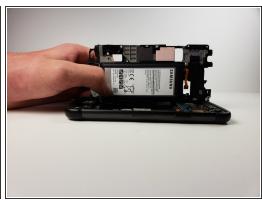

# Step 10

 Use tweezers to take out the middle button and its connection to the motherboard.

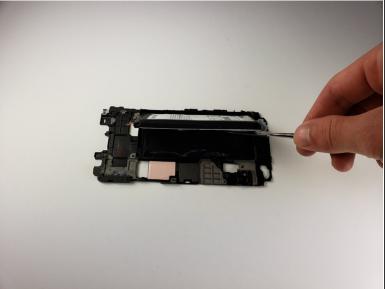

Use a metal spudger to pull the mid frame and battery off of the motherboard.

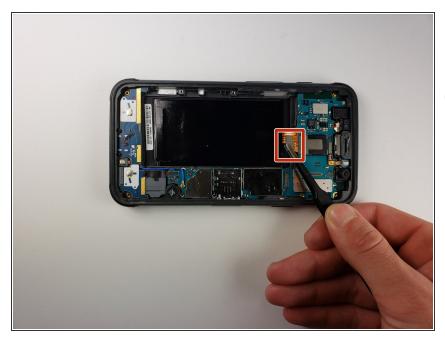

# Step 12

- Use a spudger to remove the battery from the midframe.
- To install a new battery and adhesive, follow this guide.

## Step 13 — Rear Camera

- Use tweezers to disconnect the front camera from the battery.
- The connector should unsnap similar to a lego piece.

To reassemble your device, follow these instructions in reverse order.
