INTRODUCTION

In this guide, we will be showing you how to remove and replace the Display Assembly.

## 🔧 TOOLS:

- Phillips #0 Screwdriver (1)

Step 1 — Remove the Screws

⚠ WARNING: Before working inside your computer, read the safety information that shipped with your computer. Follow the procedures in [Before You Begin.](#)

⚠ CAUTION: To avoid electrostatic discharge, ground yourself by using a wrist grounding strap or by periodically touching an unpainted metal surface.

● Remove the two screws on the base of the computer that secure the display assembly to the computer base.
