# Lenovo Tab 4 8 Front Camera Replacement

From this guide, you will learn how to replace the front camera from the Lenovo Tab 4 8.

Written By: Ivan Chavez

## INTRODUCTION

If your Lenovo Tab 4 8 (4th gen, 8 inches) front camera isn't working or is damaged, you can use this guide in order to replace the front-facing camera. By replacing the front-facing camera, usability and video quality can be improved. For this repair, make sure you have a steady hand to prevent harming the internal hardware. When replacing the new camera, be sure that all connections are secure otherwise, the camera and tablet may not function as desired.

## 🔧 TOOLS:

- Phillips #000 Screwdriver (1)
- Spudger (1)
- iFixit Opening Picks set of 6 (1)
- Tweezers (1)

## Step 1 — Battery

- Start at the microSD slot.

- Use the opening pick to slide underneath the back cover of the tablet.

- Slide the opening pick around the tablet until the back cover is off.
## Step 2

- Remove the 8 screws with a Phillips #000 screwdriver [bit].

  - There is a screw under the blue "s" sticker.

- Remove tape holding plate down.

- Use precision tweezers or your fingers to remove plate.

## Step 3

- Remove yellow tape.

- Use a spudger or plastic opening tool to remove the battery's ribbon cable from the motherboard.

## Step 4

- Gently pull on the two stretch release adhesive strips. Do not pull up, pull away from battery.

- Once the tabs are off, lift the battery up from the frame.

⚠ Do not bend or puncture the battery.

## Step 5 — Front Camera

- Using tweezers, lift the yellow tape hiding the front camera.

- Disconnect the front camera's connector from the motherboard using tweezers.

To reassemble your device, follow these instructions in reverse order.
