Step 1 — Battery

- Place PSP face down, so that the UMD Drive is facing upwards.

- Locate the battery door and open.

- Remove the battery from inside.

Step 2 — Front Casing

⚠ This step requires the removal of the warranty sticker. **Removing the sticker will void the warranty**. According to the FTC removing this will not void your warranty.

- Locate the sticker in the battery compartment labeled: *"En: Warranty Void if Seal Damaged."*

- Remove the sticker using the PSP Opening Tools.

ⓘ Under the sticker is a 5mm Phillips screw needed in the next step.

Step 3

- Remove four 5 mm Phillips from the case.

- ⓘ If the screws stick in the case, you can use a magnetized screwdriver to draw them out.

Step 4

- Remove the following screws from around the bezel:
  - Two 4 mm Phillips
  - One 5 mm Phillips

📌 The two shorter 4 mm screws are on the top of the PSP; the longer 5 mm screw is on the bottom.

Step 5

- Gently pry the front bezel away from the casing using a PSP opening tool.

- Start on the right hand side of the PSP bezel, and carefully work the tool around the side.

- (i) If you want to clean the control buttons or D-pad, you can easily pop them out once the faceplate is off and wipe them clean.

To reassemble your device, follow these instructions in reverse order.
