

# Lenovo ThinkPad X1 Yoga 2nd Generation

## Back Cover Replacement

How to remove the back cover of a Lenovo ThinkPad X1 Yoga 2nd Generation.

Written By: Ashley Haraguchi

---

## INTRODUCTION

To access any of the internal components of your laptop, the back cover needs to be removed. Use this guide as a prerequisite to any of the replacement guides.

---

### **TOOLS:**

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Back Cover

 Ensure the laptop is powered off and the charging cable is disconnected before opening the back cover.

- Flip over the laptop to access the back cover.

## Step 2

- Use a Phillips #0 screwdriver to remove the eight 8 mm screws.

## Step 3

- Remove the back cover.
- ⓘ A popping sound may occur when the back cover is removed.

To reassemble your device, follow these instructions in reverse order.
