

Normal Egg Teardown

Written By: Ben Capehart

PARTS:

[Container](#) (2)

[Fork](#) (1)

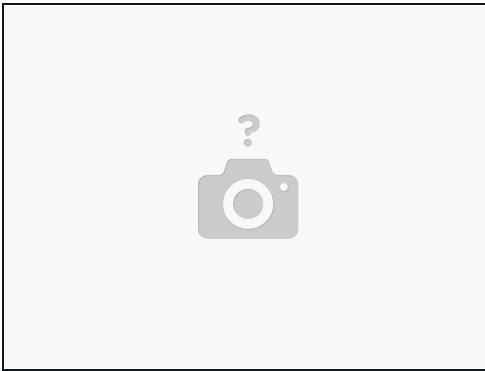

[Frying Pan](#) (1)

Step 1 — Prepare

- It's best to have a container or a frying pan under the egg while you work.

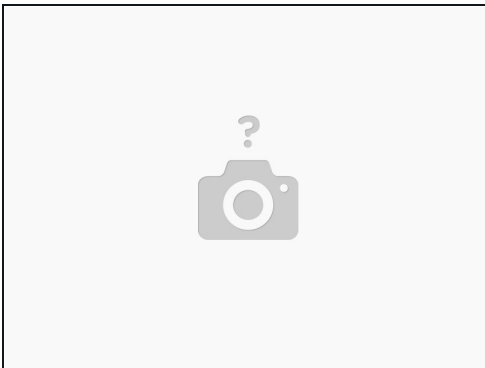

Step 2 — Open it

- Hit the egg on a solid object until cracked.
- Place your thumbs in the center and push.

⚠ Watch out for pieces of egg shell in the remains of the egg.

Step 3 — Separate the yolk and the whites

- To Separate the yolk and the whites, pour the egg whites into a 2nd container.
 - The remains should only be the yolk.
- i** If desired, poke the yolk with a fork.

Step 4 — Final Thoughts

- Egg Repair 0/10,
 - You have to destroy the Case to get in.
 - All the King's horses and all the King's men couldn't put Humpty Dumpty together again. - @
