

# UTStarcom XV6700 Battery Replacement

Even rechargeable batteries eventually wear out...

Written By: Tyson Janisch

# INTRODUCTION

Even rechargeable batteries eventually wear out and need replacing. You can replace the battery in The UTStarcom XV6700 cellular phone in three easy steps.

Swollen Battery Warning: If the battery in your phone is swollen, be sure to read this article before proceeding: <https://www.ifixit.com/News/11211/what-t...>

---

## TOOLS:

Spudger (1)

## PARTS:

BTR6700 - UTStarcom XV6700 Battery Replacement (1)

---

## Step 1 — Battery

- Press the on/off button on the top to power the phone off.

## Step 2

- Remove the battery cover by pressing and sliding the cover down and off of the phone.

## Step 3

- Pull the battery removal tab and lift the battery out of the phone.
- ⓘ If the battery removal tab is missing, place a spudger on the opposite side of the highlighted connector and pry the battery up.

To reassemble your device, follow these instructions in reverse order.
