Step 1 — Battery

- Unlock the tab located in the top left corner of the netbook.

- The red tab indicated that the battery has been properly unlocked.

- Remove the battery.

- ⓘ When working with electronics, it is always wise to remove the power source before taking the device apart.
Step 2 — Hard Drive

- The hard drive is located under this cover.

Step 3

- Remove the two (2) 5mm screws holding the cover down using the Phillips #0 screwdriver.
Step 4

- Use a plastic opening tool to lift the cover.

Step 5

- Using a Phillips #0 screwdriver, remove a third 5mm screw that holds the second cover that is directly protecting the hard drive.

Step 6

- Slide the silver cover up; the hole on the cover and the hole for the screw will no longer match up.

- Lift the silver cover; this will expose the hard drive.

To reassemble your device, follow these instructions in reverse order.
