

Krups 963 Steamer Attachment Replacement

Replacing or cleaning a clogged or non-functioning steamer attachment.

Written By: Wyatt Hall

**TOOLS:**

- [13mm Wrench](#) (1)

**PARTS:**

- [New Krups 963 Steamer Attachment](#) (1)

Step 1 — Steamer attachment

- Place 13mm metric wrench on the hexagonal portion of the steamer.
- Turn the wrench in the counter-clockwise direction (left) until the steamer's threads are loose in the shaft.

Step 2

- Remove the steamer attachment from the machine.

To reassemble your device, follow these instructions in reverse order.
