

# Motorola Droid Mini Front screen Replacement

Written By: Alec Fales

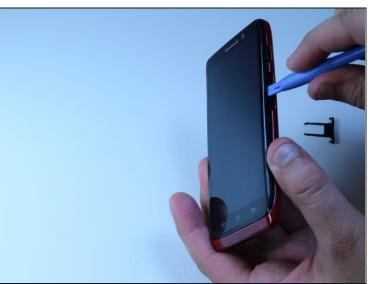

iFixit Opening Tool (1) T5 Torx Screwdriver (1) Tweezers (1)

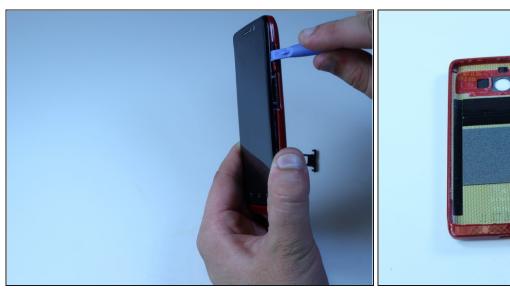

### Step 1 — Back Case

• Pull out the volume keys using the iFixit opening tool.

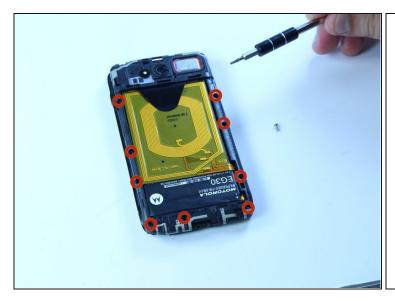

#### Step 2

- Pry off the back case gently using the iFixit opening tool.
- (i) Make sure to go around the entire perimeter of the case.

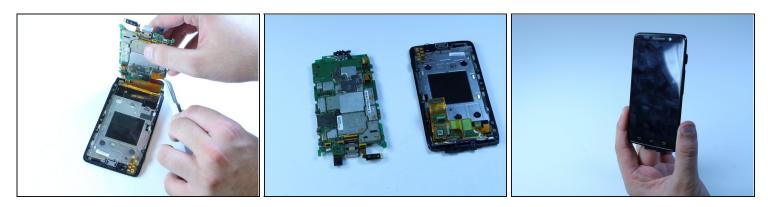

#### Step 3 — Front screen

• Use the T5 screw head to unscrew the 9 silver screws from the housing frame. Carefully separate the housing frame from the motherboard.

## Step 4

• Carefully use the <u>tweezers</u> to separate the motherboard from the screen.

To reassemble your device, follow these instructions in reverse order.
