

LG G3 Back Cover Replacement

This guide shows how to remove or replace the back cover of the LG G3 (B855).

Written By: Dominik Schnabelrauch

INTRODUCTION

Use this guide to remove or replace the back cover of the LG G3 (B855).

TOOLS:

- [Spudger](#) (1)

PARTS:

- [LG G3 Rear Panel \(T-Mobile\)](#) (1)
- [LG G3 Rear Panel \(ATT\)](#) (1)

Step 1 — Back Cover

- ⓘ Power off your phone before beginning disassembly.
- Insert a thumbnail, or a prying tool like a spudger, into the notch at the bottom left of the back cover.
- Pry the back cover up to separate its plastic clips.

Step 2

- Lift the back cover to release the rest of the plastic clips and remove it.
 - ⓘ In case you can't lift the back cover completely, slide your fingernail or your prying tool around the midframe to release the remaining clips.
- ➡ To reinstall the back cover, press it firmly into place until you hear a snap from the plastic clips to form a seamless connection with the rear side of the phone.

To reassemble your device, follow these instructions in reverse order.
