

Beiens Cartoon RC Race Car Car Battery Replacement

Replace the battery in your Beiens Cartoon RC...

Written By: Amber Ashley

INTRODUCTION

Replace the battery in your Beiens Cartoon RC Race Car.

TOOLS:

Phillips #00 Screwdriver (1)

PARTS:

AA Battery (3)

Step 1 — Car Battery

- On the bottom of the car, unscrew the 6.2 mm screw that houses the batteries using a Phillips 00 precision screwdriver.

Step 2

- Pull up the tab to reveal the battery compartment.

Step 3

- Insert AA batteries into the 3 spaces with the flat end of the battery facing the metal spring.
- ⓘ Be sure to insert the batteries with the positive and negative ends facing the right direction. The flat negative end of the battery should be in contact with the spring in the remote control car.

This guide was made to work for the Beiens Cartoon RC Race Car with AA batteries, but it should also work with other similar modeled RC cars that take AA batteries.
