

# Removing HP Pavilion zd8000 WiFi Card Cables

Written By: Allie Menard

## **INTRODUCTION**

Removing the WiFi cables is essential for further disassembly of the laptop.

## **TOOLS:**

- Phillips #1 Screwdriver (1)
- Tweezers (1)

#### Step 1 — Battery

 Slide the battery release latch towards you.

## Step 2

Pull up on the battery to remove it.

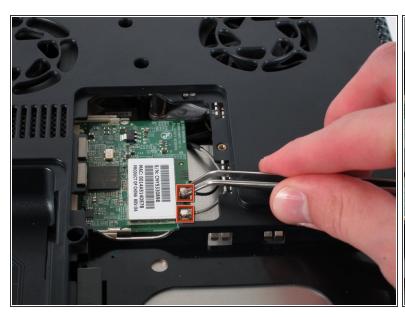

#### Step 3 — WiFi Card Cables

- Unscrew the four 8mm Philips screws marked with an icon resembling a stacks of discs.
- Lift the cover from the right to remove it.

## Step 4

• Use tweezers to detach the grey and black cables connected to the green WiFi card.

To reassemble your device, follow these instructions in reverse order.
