# INTRODUCTION

Use this guide to remove the back cover of the AZ 727. This may take a little time, so do not throw the device down in disgust.

---

## TOOLS:

[Phillips #0 Screwdriver](#) (1)

[iFixit Opening Tool](#) (1)

---

## Step 1 — Back Cover

- Remove two 3mm screws with the Phillips screwdriver.

## Step 2

- Insert a plastic opening tool in the center then gently work towards the center.
- Work the opening tool around the edges to separate the back cover from the rest of the device.
- ① Once the first corner props open, the rest should open easily.
