# Motorola 120c Motherboard Replacement

A step by step guide showing how to remove the Motherboard of a Motorola 120c.

Written By: Leonel Arjon
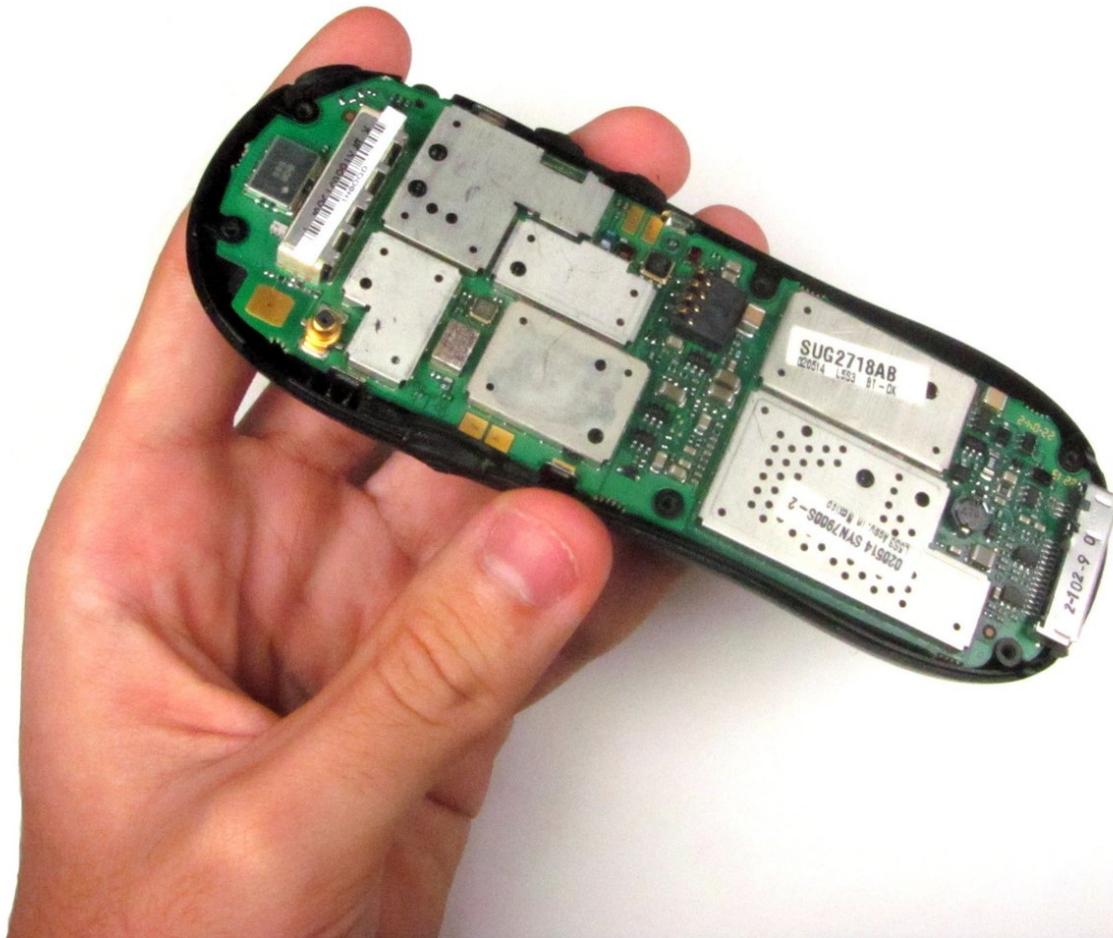

INTRODUCTION

This process involves first removing the battery and outer case. After, the motherboard can be easily removed.

🔧 TOOLS:

- T6 Torx Screwdriver (1)

Step 1 — Battery

- Hold the phone and pull the back latch down towards the bottom.

- Remove the back panel by releasing the latch and lifting from the top.

Step 2

- Remove the battery by pushing the bottom end towards the top, then lifting up.

Step 3 — Motherboard
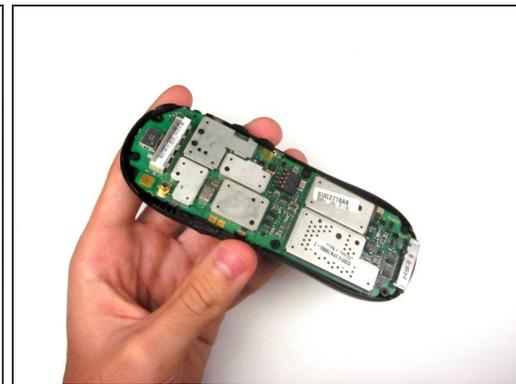

- Once the battery is out, unscrew the six 7.0 mm screws with T-6 screwdriver.

- Once the screws are removed, simply lift the back panel off

Step 4
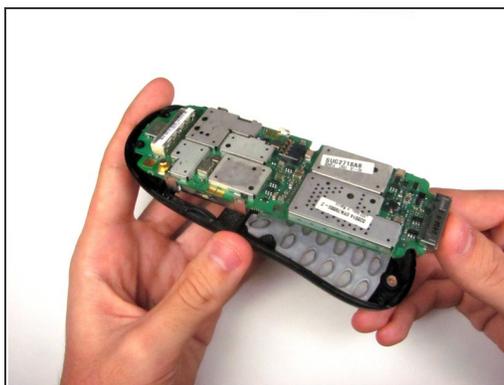

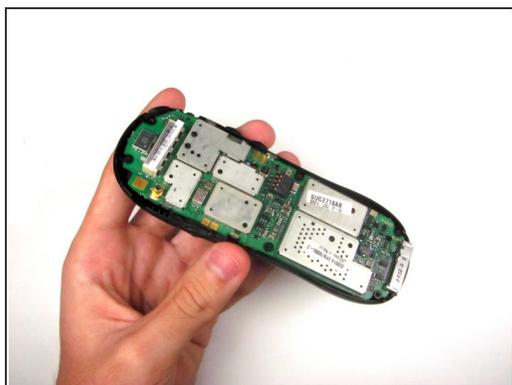

- Remove the motherboard by lifting it up and out.

To reassemble your device, follow these instructions in reverse order.
